ZUVAGARD 604™

ADVANCE WATERLESS SCRUB

DESCRIPTION

ZUVAGARD 604™ delivers advanced, long-lasting antimicrobial defense, ensuring continuous protection against harmful bacteria while keeping the skin healthy, moisturized, and soft even with repeated use throughout the day. Formulated as a complete solution for surgical and healthcare professionals, it combines rapid-acting alcohol for instant germ-kill with Chlorhexidine Gluconate, a clinically trusted antimicrobial agent known for its broad-spectrum efficacy, infection prevention, skin disinfection, and extended residual action. This modern and efficient antisepsis technique used as a Waterless Scrub maintaining superior hygiene standards in medical settings. Further enhance safety and convenience, ZUVAGARD 604™ has now been introduced with an Automatic Dispenser System, ensuring touch-free, precise, and consistent product delivery in high-traffic clinical areas. With its unmatched blend of speed, efficacy, skin comfort, and advanced dispensing technology also kills microorganism within 30 sec, it stands out as the ideal choice for safe, efficient, and dependable surgical hand hygiene. ZUVAGARD 604™ represents a scientifically superior solution for safe, efficient, and dependable surgical hand hygiene.

At Zuverlasse, we go beyond supplying premium hygiene and disinfection products we redefine industry standards. Our products are meticulously engineered using cutting-edge technology, ensuring the highest levels of safety, superior performance, and seamless convenience for our customers but our commitment doesn't stop at delivering high-quality solutions. As a trusted leader in hygiene and disinfection, we are driven by a deeper purpose: to promote health, safety, and operational excellence across every environment we serve. With a relentless focus on innovation and expertise, Zuverlasse is setting new benchmarks in the industry empowering businesses with solutions they can truly rely on.

AUTOMATIC ZUVAGARD 604™ DISPENSER MACHINE

APPLICATION AREAS

Before applying, ensure your hands are clean and dry. Dispense 3 ml of the gel into the palm of one hand. Spread the gel evenly across both hands, covering up to the wrists. Pay special attention to areas between the fingers and under the fingernails for thorough coverage. Rub your hands together briskly until the gel is completely dry or repeat the process for Hand Hygiene.

USAGE INFORMATION

Take ZUVAGARD 604™ into your palm, ensuring enough to cover both hands. Rub palms together, interlace fingers, and clean between them. Rub the backs of your hands, focusing on fingertips and thumbs and continue until the solution dries completely within 30 Sec for full disinfection. ZUVAGARD 604™ causing no irritation even after repeated usage.

PRECAUTIONS

Keep ZUVAGARD 604™ away from fire or flame. It is intended for external use only. Do not use this product if you are allergic to chlorhexidine gluconate or any other ingredients. Avoid contact with the eyes, ears, and mouth, as it may cause serious eye injury and if accidental contact happens, immediately rinse with cold water. This product should not be used on deep wounds or those involving more than the superficial layers of the skin. If you experience irritation, sensitization, or an allergic reaction, discontinue use and seek medical advice promptly. Do not use ZUVAGARD 604™ on infants.
